SKILLS

- Java
- React js
- MySql
- MongoDb
- Express js
- Javascript
- HTML & CSS
- Wordpress

CERTIFICATIONS

- Javascript - solo learn
- Java Programming - Udemy
- Web Development - Udemy
- Html, CSS, Javascript - OpenWeaver
- Mastering React - Udemy

EDUCATION

SSLC (2019)

Sri Shanmuka Matric Hr Sec School

Scored - 81%

HSC (2021)

Sri Shanmuka Matric Hr Sec School

Scored - 82%

B.E (Computer Science)

2021-2025

Sri Venkateswaraa College of Technology

CGPA - 8

PROFILE

Computer Science graduate with hands-on experience in full-stack web development and software engineering. Skilled in designing and deploying scalable, secure, and maintainable applications using modern technologies and frameworks.

INTERNSHIP

MERN stack Development (Webstack Academy)

[July 2024 - September 2024]

- Built a food ordering web app using the MERN stack, managing both front-end and back-end for a smooth user experience.
- Implemented secure login and signup with JWT authentication and bcrypt for password protection.
- Developed features to browse menus, add items to cart, and place orders for easy customer interaction.
- Used MongoDB to store users, menus, and orders, and created RESTful APIs for data communication.

Web Development (5GenGreenFoundation)

[March 2025 - September 2025]

- Customized WordPress themes and integrated relevant plugins for smooth navigation, brand registration, and content updates.
- Ensured mobile-friendly design and optimized performance for enhanced user experience across all devices.
- Enhanced visual appeal and interactivity using HTML, CSS, and custom animations for a modern, engaging interface.

PROJECTS

Task Manager

- Implemented CRUD operations with real-time updates using React Hooks for state management.
- Integrated Node.js, Express.js, and MongoDB for backend and data storage.
- Designed an intuitive UI with deadline tracking, task filtering, and a card-based layout, and deployed the application on Render for live access.

Tech Stack Used: MongoDB, Express.js, React.js, Node.js, Render, Vercel.

Netflix Clone

- Developed a responsive streaming web app interface using React.js and CSS.
- Implemented dynamic content rendering by integrating TMDB API for movies and TV shows.
- Managed state efficiently using React hooks for user interactions and UI updates.
- Added features like search, category filtering, and responsive navigation for better user experience.

Tech Stack Used : React.js, JavaScript, HTML, CSS, TMDB API

LMS with Mock Interview Integration

- Built an AI-powered LMS with adaptive mock interviews and real-time feedback.
- Integrated Gemini API for intelligent question generation and performance analysis.
- Implemented AI-driven content personalization based on student progress and performance.
- Developed using MERN Stack with Neon DB and secure cloud integration.

Tech Stack Used: MongoDB, Express.js, React.js, Node.js, Gemini API, Neon DB.
